How to Load Presets in CET/Canvas Photo Lab

Photo Lab, Photograph setup (left side column)

- ◦ Select the drop-down arrow next to "Photograph setup"

- ◦ Select "Open custom presets folder…"

- ◦ Notate the folder path where the presets are saved*
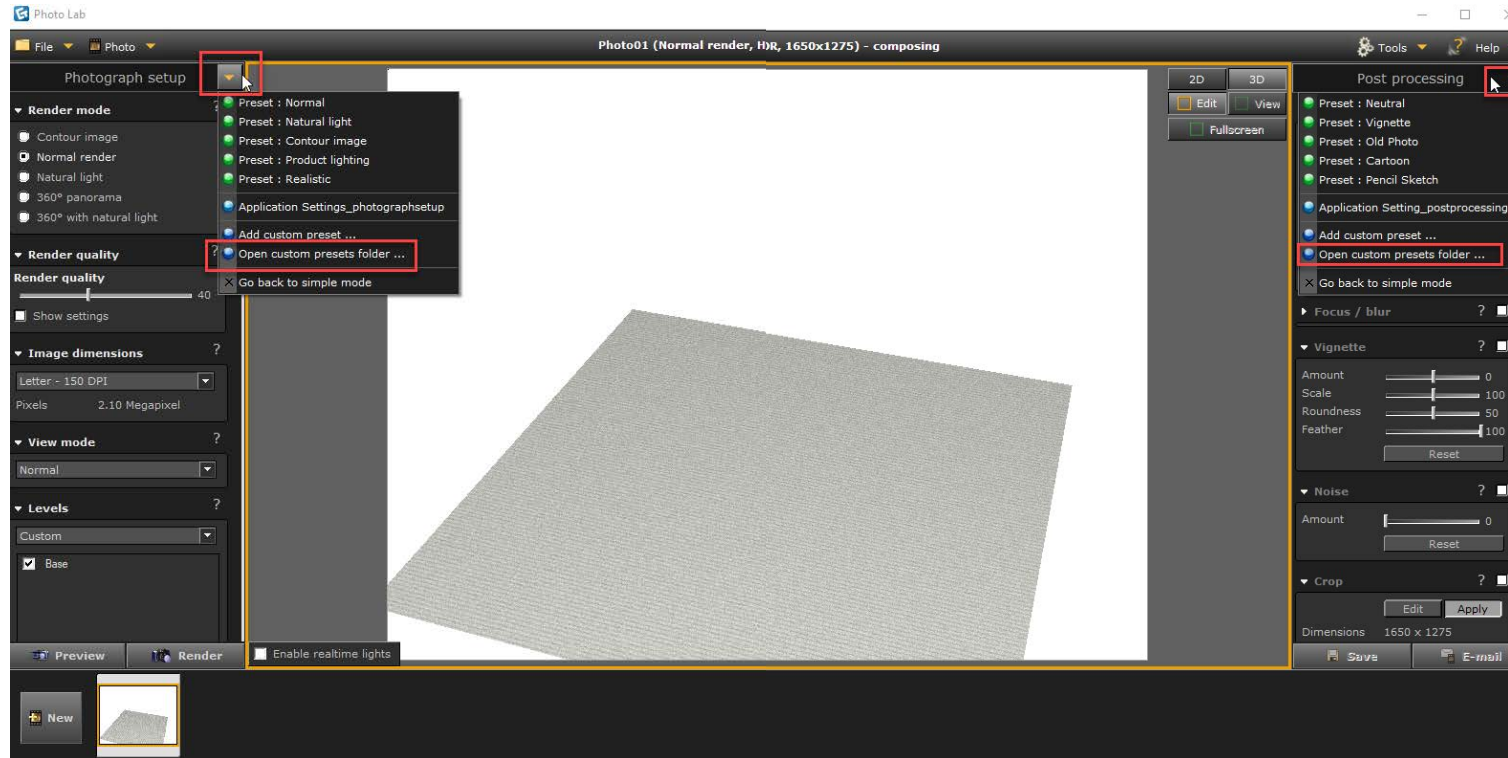

- ◦ Copy the downloaded .cmpreset file into this folder

Photo Lab, Post processing (right side column)

- ◦ Select the drop-down arrow next to "Post processing"

- ◦ Select "Open custom presets folder…"

- ◦ Notate the folder path where the presets are saved*

- ◦ Copy the downloaded .cmpreset file into this folder

*Note: the paths for each may not be the same folder location
