

How to Load Canvas Schemes (.cmsch)

- Download scheme folder of choice
- Select all the .cmsch files
- Copy all the .cmsch files into the folder where you save your schemes
 - Path to this folder is found in the Scheme Manager window under “Scheme destination folder”

How to Load Presets in CET/Canvas Photo Lab

Photo Lab, Photograph setup (left side column)

- Select the drop-down arrow next to “Photograph setup”
- Select “Open custom presets folder...”
- Notate the folder path where the presets are saved*
- Copy the downloaded .cmpreset file into this folder

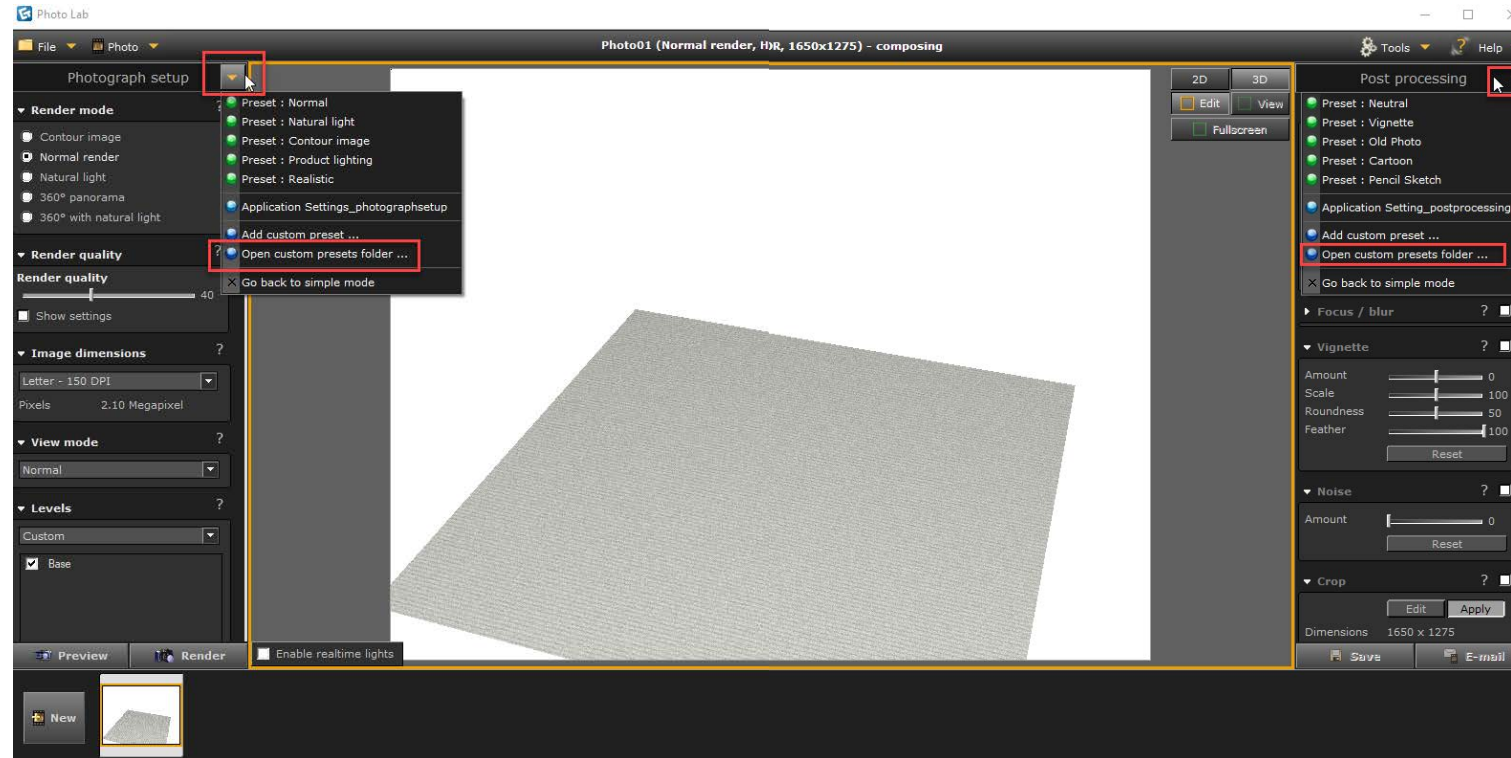

Photo Lab, Post processing (right side column)

- Select the drop-down arrow next to “Post processing”
- Select “Open custom presets folder...”
- Notate the folder path where the presets are saved*
- Copy the downloaded .cmpreset file into this folder

*Note: the paths for each may not be the same folder location
